Welcome to the Alberta Shorthorn Association's 2nd "All Star Classic" Shorthorn Sale. Kirk Seaborn, as Sale Chairman, and his team have put together a wonderful offering of top Shorthorn genetics across western Canada. On offer will be powerful herdsire prospects, bred females, calendar year heifer calves and embryo packages – the kind of genetics will excite the most discriminating Shorthorn enthusiast.

What a difference a year makes in the beef industry. From last fall the cattle market has been continuing to improve. Everyone is proud to be in the industry and raising the right kind that will always add to their returns.

If you have any questions please contact any of the consignors, Kirk Seaborn or myself. If you are interested in adding these great genetics into your herd but are unable to attend the sale please contact any of the sale staff, livestock representatives or Don Savage Auctions and your order will be handled in a professional manner.

Yours truly,  
 Don Savage

DIAMOND CAPTAIN MARK 27C X  
FRASERS KALEIGH'S MARCIE 5M X

**Consignor: JT Livestock & Pinchhill - Stettler, AB**

Frost The Fire is a wide structured, easy fleshing bull that travels on sounds feet and legs; it's hard not to appreciate him for the amount of red meat that he possesses while at the same time still keeping the eye appeal that breeders look for. Being Daisy's first natural bull calf he is sure to carry on the maternal and performance traits that we praise her for. We believe that Frost The Fire will go on to positive things in the cattle business, whether that is siring show ring contenders or commercial cattle that will perform in the feedlot.

**Consignor: Paintearth Shorthorns - Castor, AB**

### Boomer or Buddy

As we don't need 2 full brothers as herd sires, we are willing to part with one. Pick the one you like the best. We used Boomer on 20 cows this summer and he continued to grow and fill out through the breeding season.

These are 2 exceptional examples of Ramrod influence. They have length, depth and width. Real Meat machines; add to that their exceptional dispositions.

These are full brothers to Paintearth Walter 58W. Selling in this sale is a daughter of Walter's. This is a very good example of the offspring these bulls are capable of producing.

**Consignor: JT Livestock & Pinchhill - Stettler, AB**

Blizzard was raised by a moderate framed structurally sound heavy milking 2yr old. His small 76lbs birth weight is only one many positives that this future herdsire has. He is clean fronted and big footed with lots of natural thickness and style that should help him produce functional maternal females and solid performing bulls down the road.

Lot 4 - JTPH Blinding Blizzard 50Z

*Powerful Bred Heifers*

**5**

Polled Roan Bred

**Consignor: Crooked Post Shorthorns - Rocky Mtn. House, AB**

P/E: May 26 to August 22, 2012 to Crooked Post Callahan 12Y

Catalina 13Y is quite impressive in her design; smooth made and full of shape. Her sire, Crooked Post Tamarack 17W, left a tremendous sire group here at Crooked Post and is now on duty at Cedar Grove in Quebec. In 2008 we raised a group of ET calves from Waukaru 12H Melita Rose, dam of Waukaru Patent, and from this group Crooked Post Catalina 7 was drafted into the herd. Her first calf is Catalina 13Y that we offer you with pride.

Lot 6 - Crooked Post Catalina 13Y

**Consignor: Crooked Post Shorthorns - Rocky Mtn. House, AB**

AI: April 28, 2012 to Belmore Jackaroo Z109  
P/E: May 26 to August 22, 2012 to Crooked Post Callahan 12Y

After three years of Grissom calves hitting the ground on three continents, he's established himself among a small group of the elite; a trait leader in the 2012 American Sire Summary for six traits which include a combination of calving ease, growth and maternal indicators. The Grissom progeny maintain and perform well on basic roughage, his daughters are easy calving, have strong mothering instincts, have tidy udders with plenty of milk, are docile and level headed. Crooked Post Maria 25Y is exceptional and is destined to be a great genetic investment.

Lot 8 - Crooked Post Lassie 52Y

8

Polled Red Bred  
**CROOKED POST LASSIE 52Y**

EPDs: CE: 2.8 BW: 1.2 WW: 31 YW: 58 Milk: 7 MW: 23 MCE: 4.4

**Consignor: Crooked Post Shorthorns - Rocky Mtn. House, AB**

P/E: May 26 to August 22, 2012 to Crooked Post Callahan 12Y

Lassie 52Y should continue on the Lassie Legacy, they continue to play a large role in our program. Lassie's sire, Crooked Post Arbutus, is a full brother to Grissom 24T that we used heavily for a season before going into a large commercial herd. Lassie 52Y is soft made, yet has a ruggedness about her that would suggest she will be a solid producer for years to come. We have two K-Kim Dillon / Lassie ET females that we purchased 9 years ago as heifer calves. A powerful Shorthorn herd could have been created from these two; their breeding prepotency has impressed many.

Lot 9 - Crooked Post Minnie 60Y

9

Polled Red Bred

EPDs: CE: -0.9 BW: 2.0 WW: 19 YW: 38 Milk: 6 MW: 16 MCE: -2.5

**Consignor: Crooked Post Shorthorns - Rocky Mtn. House, AB**

P/E: May 26 to August 22, 2012 to Crooked Post Callahan 12Y

Sired by the powerhouse Crooked Post Arbutus and from our 13 year RB Eagle 192/ Minnie cow who has raised and weaned 14 calves for us so far, a list as long as your arm of replacement females and herdsires. Through her production career we've seen many fads and fashion come and go in our breed, our focus has remained constant; breeding Shorthorn cattle that are consistent and predictable in their ability to produce a top quality product that our beef industry requires to remain viable and profitable.

P/E: May 7 to July 25, 2012 to HC Bar Code 16X

Here is An ET daughter of Saskvalley Pioneer 126P and Shamrock Lucy 68L that we never intended to ever offer for sale. Only because we have a flush mate sister and some full sib pregnancies due next spring, and her dam has another good heifer this year, have we decided to offer one of our very best. 13Y and her sister are almost identical, and they are both going to make excellent brood cows. A flush mate brother was one of our top gaining and top selling bulls in the 2012 Sun Country Bull Sale selling to Clearsight Farms, Kisbey, SK. Her dam, Shamrock Lucy 68L has done everything we could have ever hoped for, and this heifer will do the same for her new owner. Buying this heifer is not just a purchase - it is an investment that will pay major dividends.

P/E: May 7 to July 25, 2012 to HC Bar Code 16X

Our Leroy daughters are becoming some of our best producing females and this heifer has been a standout since birth. She has excellent thickness and is as easy fleshing as they come. Her dam always has a calf in the top end of the calf crop and she has a great udder and is fertile and trouble free. The Melody Lady cow family has been one of the most consistent we have in our herd. This heifer may be horned, but don't discount her for that. She is structurally sound in every way and is going to make a front pasture brood cow.

**Consignor: Horseshoe Creek Farms Ltd - Weyburn, SK**

P/E: May 7 to July 25, 2012 to HC Bar Code 16X

This heifer was purchased in dam in the 2010 Shadybrook sale, and she is sired by Waukaru Patent 8161 ET, who has sired outstanding offspring in many countries. A Patent son, Sprys Patent's Ace sold for \$46,000 at the Sprys Shorthorns sale in Australia. His offspring at Shadybrook and Waukaru are very impressive. This heifer is also backed by a great momma who has a flawless udder. This heifer has outstanding numbers and is backed by performance and predictability. Her Bar Code calf could be pretty interesting! Bar Code is sired by Pheasant Creek Leader 4th, who was the 1970 Grand Champion and then record seller at the Regina Bull Sale. We have calved 28 heifers to him in 2012 and only assisted one birth - a malpresentation.

We could not be more pleased with how our Touchdown heifers are developing and when you see this heifer, you will understand why. She is moderate framed, thick, apple smooth and feminine. Take a look at this heifer's head. I have heard it said many times, that a heifer's head can tell you almost everything you need to know about her productive value. I tend to agree and this heifer has a beautiful productive head. Volumes could be written about the descendants of the Raggedy Ann cow family. This heifer is very structurally sound in every way. The dam of 25Y has one of our very best bulls born in 2012 and he will be in our show string this fall. This is a female you can build a program around and I should have my head read for agreeing to put her in the sale. Opportunity time! She is entered to show at the Canadian Western Agribition.

**Consignor: Horseshoe Creek Farms Ltd - Weyburn, SK**

P/E: May 7 to July 25, 2012 to HC Bar Code I6X

Here is a moderate framed heifer that comes from our Sparkle cow family. She is moderate framed and very easy fleshing, and comes from a first calf heifer. Her grandmother was a high selling female in the Fever sale and is now working at Cyclone Trace in Iowa. We don't have any Hillside Leader daughters in production yet, but the Bales family in Tennessee, tell us that they have excellent udders and are developing into very good cows. This heifer is backed by generations of easy fleshing low maintenance females. Two of our Sparkle cows are presently being flushed for New Zealand, and embryos from our Sparkle donors have sold to 7 countries.

HC Bar Code I6X - Service sire to Horseshoe Creek heifers

Maria 2Z is sired by the Australian bull Belmore Jackaroo Z109 from Andy Withers. Jackaroo excelled in the Durham Research Project and is making waves across Australian breeding programs. We have plugged Jackaroo into our program for four years and are very happy with what we've created. Maria 2Z has been a favourite from the beginning, she combines a lot of what is important to us, she is no mistake and to be quite honest she is really not a surprise to us, she is just what we expect from these genetics. Reliable, predictable and profitable; purchase with confidence.

Braebank Wentworth has given us incredible calves this year. This easy fleshing, deep-bodied heifer calf is one of them, and comes from a strong line of females on her dam's side. Her grandmother, New Beginnings Jumanji 21J, is still producing in our herd at 13 years old. This very correct heifer calf would improve any breeding program and is a top show heifer prospect as well.

**Consignor: Diamond Shorthorns - Okotoks, AB**

From the very top of our heifer calves. Her dam has been a top producer and we retain two maternal sisters to Barbra Jean Maid 1Z. Her sire is senior herd sire at Anwender Cattle Company in SK and his first calves have been well received.

This stylish heifer has been a favorite since birth. Her dam is a moderate framed first calf heifer that is doing an awesome job on this calf. We love the clean front, depth and thickness of this heifer. Color Me Rona is unquestionably show heifer material with a bright future.

**Consignor: Ashley Shannon - Innisfail, AB**

Sweet Dreams says it all with this exciting heifer prospect. She is stout, long and has that extra depth of body. We cannot say enough about the potential of this Dream Weaver daughter. I have retained several siblings in my herd with all of them having picture perfect udders and an abundance of milk.

**Consignor: Butterfield Shorthorns - Monarch, AB**

Butterfield Winnette 1Z is as pretty a heifer that has ever been presented by Butterfield Shorthorns. She is a definite show prospect with a distinctive colour pattern. Already halter broken, she will make a great junior project. The Winnette cow family have been producing winners and high sellers since the original cow came from Bearcroft in the late 70's.

## Planned Mating Embryos

Lot 47 Embryo Dam - Prairie Lane Sparkle 1K

Lot 48 Embryo Dam - Six S Leah 55L

Lot 49 Embryo Sire - Diamond Captain Mark 27C

Lot 50 Embryo Dam - Butterfield Lady 13N

**47**

Embryo Package  
**PRAIRIE LANE SPARKLE 1K  
X MURIDALE BUSTER 14K**

Consignor: Horseshoe Creek Farms Ltd - Weyburn, SK

### 4 Grade One Frozen Embryos

This will be the last time we will offer these genetics. We will have a few Buster embryos remaining in inventory, and they will all be retained for use in our herd, unless we find some more semen from him. Muridale Buster 14K semen is now sold out and here is an opportunity to obtain his offspring from old Sparkle herself. Sparkle is probably best known as being the dam of Wolf Willow Major Leroy 1M, but she has also produced many other outstanding progeny. Sparkle and one of her daughters have been selected for several flushes for several New Zealand breeders. Buster 14K is probably best known for siring great daughters with flawless udders, but he has also sired many excellent herd sires. These genetics should result in some great offspring! We will offer a minimum pregnancy guarantee of 50% at 70 days following implantation providing an experienced embryo technician is used. This means we will guarantee a minimum of 2 pregnancies from the 4 embryos at 70 days. These embryos are exportable to most countries.

**48**

Embryo Package  
**SIX S LEAH 55L  
X MANDALONG SUPER FLAG**

Consignor: Horseshoe Creek Farms Ltd - Weyburn, SK

### 4 Grade One Frozen Embryos

We felt that combining Super Flag from the 70s with our most prolific donor would result in some excellent offspring. Super Flag was one of the bulls that turned the breed around in the 70s. Six S Leah 55L is an amazing female in her own right. She is probably the thickest and deepest bodied cows we have ever owned. Not only is she impressive in her own right, but she has produced many impressive offspring. We purchased Leah in the historic Butterfield dispersal where she was described by Phil as being "a truly monumental mother cow." Truer words have never been spoken! She is also our most prolific donor and to date, she has produced 411 grade 1 embryos and they have been sold to breeders around the world. Everyone who sees Leah is impressed with her overall mass of body, and she is living proof that some big cows can be easy fleshing. Regardless of the sexes of the resulting calves, they will be herd sire or herd matron material. We also will guarantee a minimum pregnancy rate of 50% at 70 days after implantation providing an experienced embryo technician is used. (i.e.: we will guarantee a minimum of 2 pregnancies from the 4 embryos at 70 days) These embryos are exportable to most countries.

**49**

Embryo Package  
**MATLOCK ARIEL 63A  
X DIAMOND CAPTAIN MARK 27C**

Consignor: 6S Farms - Stony Plain, AB

### 3 Grade One Frozen Embryos

### 3 Grade Two Frozen Embryos

A blast from the past. The product of two bulls [Enticer & Captain Mark] that have each played a major role in the development of the Shorthorn breed. The high number of offspring registered from each of them attests to their prominence and popularity. Both Captain Mark and Ariel have produced herd bulls that we have used successfully in our pasture. A unique opportunity to purchase some outstanding genetics.

**50**

Embryo Package  
**BUTTERFIELD LADY 13N  
X THE GROVE KOOKABURRA W735**

Consignor: Diamond Shorthorns - Okotoks, AB

### 3 Grade One Frozen Embryos

Sired by The Grove Kookaburra W735 a quadruple trait leader in Australia for gestation length, carcass weight, ribeye and marbling! Kookaburra is amazingly above breed average in 19 out of 20 traits. He sired the \$27,000 high selling bull, Belmore Osh Kosh, at last year's Dubbo bull sale. Add the great producing Butterfield Lady 13N as the dam, she being a great producer of the Dixon Farms winning DF Godiva's and you have one of the most interesting outcross pedigrees in the breed.

**Consignor: Kenlene Shorthorns - Ponoka, AB**

**Selling a flush to the bull of the buyer's choice**

We are offering a flush on one of our top producing cows. We bought Sparkle at Farm Fair in 2008 after winning heifer calf champion. She went on to win many championships after that, including Champion Female, AB Jr. Show, First Lady Agribition. Her first two daughters have won AB Jr. Show 2012, All Breeds Bashaw, Western Days.

Kenlene Shorthorns will guarantee a minimum of 6 freezable embryos. Buyer pays all costs associated with flush. Sparkle is bred to calve February 19, 2013 and will be available for flushing soon after.
