*Shorthorn
Sale*

Saturday
OCTOBER 19 2013

*1:00 pm MDT at the
Lacombe Ag Society Grounds
Lacombe, Alberta, Canada*

Welcome to the Alberta Shorthorn Association's 3rd "All Star Classic" Shorthorn Sale. Kirk Seaborn, as Sale Chairman, and myself have scoured the country to be able to present to you this top quality offering of Shorthorn genetics. This year's numbers are lower. With the addition of new consignors we are pleased to offer a powerful lineup of herdsire prospects, bred females, calendar year heifer calves and embryo packages – the kind of genetics will excite the all Shorthorn enthusiast.

The cattle market continues to climb, proving that an investment in top quality seed stock is a real asset. The cattlemen that are in the business today are proud to be in the industry and look forward to a great future.

If you have any questions please contact any of the consignors, Kirk Seaborn or myself. If you are interested in adding these great genetics into your herd but are unable to attend the sale please contact any of the sale staff, livestock representatives or Don Savage Auctions and your order will be handled in a professional manner.

Yours truly,
Don Savage

Consignor: Crooked Post Shorthorns - Rocky Mountain House, AB

In the 2012 All Star Classic we offered the impressive pair of Crooked Post Lass twins selling to Tom Green Farms Ltd., Calgary, AB, and to Westridge Shorthorns, Valley City, N. Dakota. Now we present to you a full brother to this pair, Crooked Post Weiser 26A. For his age he is bold and expressive in his skeletal structure and muscle mass, good testicle development, square tracking and sound made. Serious herdsire potential.

A unique pedigree offered here. Sired AI by the well known HS Instant Enticer and from a cow sired by the same bull that sired Six S Panther and Six S Leah among others. Nan is also the mother of Six S Viper, a current herdsire at Schafers Shorthorns. Performance and predictability are bred into this bull on both sides of the pedigree.

P/E: May 17 - June 18, 2013 to Crooked Post Callahan 12Y
June 24 - July 29, 2013 to Crooked Post Stockman 4Z

Another bred heifer that we are proud to offer. Her dam, Minnie 20T, is likely the best cow from the Crooked Post Minnie Capri 20K embryo development with over 40 progeny developed in North America and Europe. Top 4% of the breed for Calving Ease, top 20% Birth Weight, top 2% Weaning and Yearling Weight, top 10% Maternal Calving Ease.

Her sire, CP Jackaroo 36X, saw use at Crooked Post on 30 females in 2011 before Lund Farms scooped him up for their 2011 fall breeding season. They claim he is the ultimate heifer bull that doesn't compromise pay weight and his daughters are held as replacements.

June 24 - July 29, 2013 to Crooked Post Stockman 4Z

Another solid Maria heifer on offer, we continually strive to produce this type of female. Our bull market demands that our mother cows deliver on calving ease, growth performance, maternal strength, carcass quality and physical soundness. Maria 56Z is consistent with here genetic contemporaries but is absolutely unique when compared against the Shorthorn population. She lands in the top 5% of the breed for Calving Ease, Maternal Calving Ease, Weaning, Yearling Weight, Milk and Maternal Weight Traits.

Lot 9 - Crooked Post Maria 56Z

P/E: May 9 - June 15, 2013 to Hatfield Prophet 23Z

Observed bred May 20, 2013.

A big, powerhouse of a female, long and correct. Her dam is probably the prettiest and easiest keeping cow in the herd. Her sire was bred in the herd of Rolly Bateman and came to us in a cow that we bought at his dispersal. He combines the old and the new in a really good roan package. We have kept all of his heifers with the exception of this one and a heifer that was sold to Ontario. Hatfield Prophet 23Z is a son of JT Ultrawash 30U and out of a daughter of Diamond Prophecy.

Consignor: Creekside Shorthorns – Holden, AB

P/E to Creekside Clutch 12Z

This off age bred heifer is super cowy, has a pile of volume from fore rib to flank and flawless feet and legs. Being that she was so young, we decided not to breed her as a yearling, but she was special enough to keep around. This cow family has produced many great females for us and this heifer is made right to do the same for her new owners. Creekside Clutch 12Z is our newest calving ease sire.

Consignor: Foxwillow Shorthorns - Hamiota, MB

P/E February 19 to April 19, 2013 to Foxwillow Yeates 17Y
Observed bred March 3, 2013

Foxwillow Yokel is by Ultrasonic a Major Leroy son and out of Star P Josie by Gold Spear the breeding says it all. She is a deep bodied female with loads of femininity. We have had some great females by this sire and these are the first we have offered for sale. Yeates is out of HC Raggedy Ann 24W by Hillside Leader a calving ease sire, low birth weight calves with plenty of muscle and growth, yet ideal frame.

Consignor: Foxwillow Shorthorns - Hamiota, MB

P/E February 19 - April 19, 2013 to Foxwillow Yeates 17Y

By Foxwillow Uttoxeter whose sire Spartacus was our first crop of calves by Buster 14K and he is still working in a commercial herd with exceptional calves. If we had a larger herd we would probably still be using him. Yewberry is out of a Superflag female we bought at Agribition from the Rosenkranz's and her mother Schoolview 29C Crocus35J was a major producer in the Uluru ET program. This heifer just seems to keep growing which is not like her parents who are both just moderate frame and great fleshing ability.

Consignor: Crooked Post Shorthorns - Rocky Mountain House, AB

P/E May 17 - June 18, 2013 to Crooked Post Callahan 12Y

June 24 - July 29, 2013 to Crooked Post Stockman 4Z

A 'Super Heavy Weight' pedigree. Top 5% Calving Ease and Top 1% of the breed for Weaning Weight, Yearling Weight, \$Feedlot and \$British Maternal Index. Red Rose 17Y herself ratio indexes 109.5, 106.6 and 108.6 for Birth, Weaning and Yearling Weights respectively among her contemporaries.

The Shorthorn breed has been noted as the breed to turn to in order to increase fertility rates, mothering ability and marbling traits in a cowherd. The American Shorthorn Association recognizes the superior bulls that pass on these relevant traits as Pacer Performance Sires. In the decades that this award has existed, there has been only three bulls in the breed that have qualified, Waukaru Gold Card 5042 is the third bull and the youngest bull to have earned this prestigious title. All facts and figures aside, Red Rose 17Y is also a great specimen.

June 24 - July 29, 2013 to Crooked Post Stockman 4Z

An excellent example of the true beef cow. As a yearling, Minnie 4IU scanned at the top of her group for % Lean Meat Yield, REA, and Marbling. Not many Shorthorn females can offer up this level of carcass qualities and growth power and still rank so highly for fertility and maternal traits. She also index ratios 108.7 and 105.8 for Weaning and Yearling weights respectively. In 2008 a flush of her dam went to our friend Bob Riviere at Uluru Shorthorns. Sound structure, great performance and proven genetic potential.

Consignor: J T Livestock & Pinch Hill Cattle Co. - Stettler, AB

AI: June 19, 2013 to DF Talladega

Ruby Xena 2X was purchased out of the stalls at the 2010 CVWA, since then she has developed into a structurally correct, angular heavy milking young female. Her first bull calf was sold thru this very sale just last year. She has been mated to the new and very exciting DF Talladega, we feel this is a cross that will work on her combining the muscle and mass of Talladega and the maternal traits that Ruby has exhibited so far.

A beautiful cherry red heifer, very feminine, and very showy. Her dam is a maternal sister to CP Grissom and has two other daughters in the herd. Her sire, 13X, is perhaps the only natural son of Byland Mission walking in Canada and is leaving calves that are deep and wide and grow like crazy.

Consignor: Paintearth Shorthorns – Castor, AB

I don't sell many Ramrod daughters, but to help this sale I decided to sell this top heifer. Ross Gray has a full sister working in his herd in Manitoba. We have two maternal sisters in our herd, so thought I could part with this one. This cow family has been in our herd for 30+ years. Exceptional bloodlines!

Embryo Package
**SASKVALLEY PRIMO 40T X
x HC FL ELSIE'S J-LO 3T X**

Consignor: Horseshoe Creek Farms Ltd. – Weyburn, SK

4 GRADE I FROZEN EMBRYOS

We felt mating Primo with our J-Lo donor would result in some pretty good offspring and after having an excellent flush, we have decided to share four of them in this sale. J-Lo is a full sister to our Elsie Jade female that has been so popular with breeders in many countries. J-Lo has produced some excellent offspring for us and she possesses tremendous thickness and fleshing ability herself. Primo was the senior herd sire at Alta Cedar and Diamond for several years and he is recognized as a sire of superior progeny. We offer our standard pregnancy guarantee of 2 pregnancies at 70 days from these 4 embryos providing an experienced embryo technician is used. These embryos are exportable to most countries.

Lot 33 Donor Dam - HC FL Sparkle Delight 2X

33

Embryo Package
**WAUKARU ORION 2047 ET *X
x HC FL SPARKLE DELIGHT 2X X**

Consignor: Horseshoe Creek Farms Ltd. – Weyburn, SK

4 GRADE I FROZEN EMBRYOS

Waukaru Orion - Sire of Lot 33 Embryos

These four embryos will be the first to be offered in Canada from Orion. Orion was one of the most talked about bulls in Denver last year and I was so impressed with his muscle expression, capacity and soundness that I immediately purchased a syndicate interest in him. After thinking about my decision I decided I should purchase a second syndicate interest as he impressed me so much. I consider Sparkle Delight 2X to be the best daughter of Pioneer we have had and she is also the best daughter of Prairie Lane Sparkle 1K we have produced. We will have several ET calves born next spring from Orion and 2X. We will guarantee 2 pregnancies from these 4 embryos provided they are implanted by an experienced technician. These embryos are also exportable to many countries.
