What a fantastic time to be in the livestock business. Record prices are being paid at the auction markets on all classes of cattle. To everyone who stayed in – congratulations. You have a very bright and exciting future in our chosen industry. The supply of beef cattle is at a low, not seen in decades, and the demand is ever increasing throughout the world with rising populations.

We have new breeders in this year's sale which will add some new genetics along with our mainstay breeders that are renowned for selling their best at the "All Star Classic" Sale. It is always important to add top quality seed-stock into your herd. Increasing your investment will be a real asset in today's cattle market. We have the herdsire prospects, bred heifers, calendar year heifer calves and transplant genetics that will help you shape the future of the breed.

If you have any questions please contact any of the consignors, the Sale Chairman - Kirk Seaborn or myself. If you are interested in adding these great genetics into your herd but are unable to attend the sale please contact any of the sale staff, livestock representatives or Don Savage Auctions and your order will be handled in a professional manner.

Yours truly,
 Don Savage

P/E June 16 to August 30, 2014 to
Crooked Post Stockman 4Z

A heifer with one heckuva future in front of her. I've admired Scarlett 22A for a while, she grabs your attention to look at and her performance figures really set her apart from the rest. She ratio'd 109 for marbling against her counterparts at 12 months and ranks at the top of the breed for calving ease and growth. Of all the 2010 born Shorthorn bulls in Australia recorded with ABRI Breed Plan, Yamburgan Tobermorey F90 is ranked #1 for Northern Maternal Index and is in the top 1% for Domestic and Export Maternal Indexes. Summarized, these three selection indexes indicate the profit potential of a sire's progeny to be raised and finished off of grass; steers for slaughter and daughters retained for breeding. It is thought that Tobermorey F90 will do more than his fair share in the quest to build a better beef product more efficiently and profitably.

Tobermorey F90 - AI Service Sire

We've always paid close attention to the production output of our females; calving intervals and weaning pounds every fall; consideration of these two factors can make 'Old Betsy' look like a flat out financial burden or a true Cash Cow. Minnie 27A's dam gave us Crooked Post Jackaroo 36X who we used heavily before being acquired by Lund Farms. She is a 3-D kind of female who long, deep and wide, a real grass to beef convertor.

A very dimensional and sound structured bred heifer. We calved out a group of our Exclusive 65X daughters this last year and they are what we expected; hands free calving, maternal power, and quick rebreeding with maintenance inputs. Ratio 109.5 and 109.4 for weaning and yearling weights respectively. Crooked Post Stockman 4Z is a young sire who's on top for calving ease, growth, maternal and carcass traits. Add docility, homozygous polled, dark solid red, incredible phenotype and a pedigree full of breed leaders and we're talking about a Shorthorn sire who's worth crossing borders for.

Consignor: Prospect Hill Shorthorns - Meeting Creek, AB

P/E April 30 to July 31, 2014 to Creekside Ruffian 11A X-477609

Prospect Hill Amay-Lou 11A is sired by Garlind Maxim 18X. Her dam 39U is a foundation cow in our herd. She has produced several herdsires including Yoho Wakefield 34Y that we used for two years and is now working in Steve Innis's herd - Edberg, AB. Her service sire is a white yearling son of Paintearth Rama.

P/E April 30 to July 31, 2014 to Creekside Ruffian 11A X-477609

Rafter W Amanda 3A's maternal grandsire was used for several years to breed heifers in the Prospect Hill herd due to his easy calving abilities. Her paternal grandsire was the 2011 Reserve Grand Champion Shorthorn Bull at Farmfair. Amanda was P/E to WDB 11A - a white yearling son of the 2010 Grand Champion Shorthorn Bull at FarmFair - Paintearth Rama. She has two sisters retained in my herd. Amanda is TH free by pedigree.

P/E May 1 to July 30, 2014 to Muridale Rooster 57Z X-476474
 Observed bred May 21, 2014

This fancy, deep bodied red heifer is the only bred daughter of Sam 13X that we will be letting go this year. She is from the same cow family at Balmoral Oaks as Peterson's good Eagle bull. She is going to be a tank and will get better and better as she matures. Her dam gave us a full brother to I330 this spring and he will be going into the bull pen. Bred to Rooster for a late February calf.

P/E May 1 to July 30, 2014 to Muridale Rooster 57Z X-476474
 Observed bred May 24, 2014

I312 is a granddaughter of the 2006 National Champion female, Crooked Post Sam 2P, her dam being the full flush sister to our Sam 13X bull. We really shouldn't let this heifer leave the herd, but her dam is still young and will be entering a flush program in the future. She is our most powerful bred heifer and that roan colour will please anyone. Bred to our calving ease bull, Muridale Rooster 57Z for an early March calf.

Consignor: Dollar Creek Shorthorns - Virden, MB

This heifer comes from a cow which was purchased from the good Diamond herd at the All Star Classic in 2012. The Unica Maid cow is the easiest keeping cow on the farm. 1418's sire, Sam 13X, is the only Byland Mission son walking in Canada and has left the best calf crop we have ever had. All of his calves are thick and deep bodied and extremely quiet. She will make an excellent junior project and then turn into the brood cow who will be the dam of your next herdsire.

35

Embryo Package
**HC FL SPARKLE DELIGHT 1X
 X PAINT EARTH RAMA 53U**

★ 4 Grade 1 Frozen Embryos ★

Donor Dam - HC FL Sparkle Delight 1X

Sire - Paintearth Rama 53U

Consignor: Horseshoe Creek Farms Ltd - Weyburn, SK

There really was no decision as to what sire we should use in our first flush of 1X as Rama was a natural choice. He compliments her so well that we think the resulting calves will be very special. Sparkle Delight 1X and her flush mate sister 2X have developed into two of our most impressive and productive females. We are really impressed with our Rama calves from 2X and expect the same will be true for the calves from 1X. 1X is presently being flushed for a breeder in New Zealand. She has tremendous thickness and volume and is one of the easiest fleshing females we have ever produced. Being mated with Rama will ensure calves that are the same.

These embryos are exportable to most countries and we will guarantee a minimum of two pregnancies at 70 days following implantation providing an experienced embryo technician is used.

36

Embryo Package
**HC SPARKLE DELIGHT 2X
 X COALPIT CREEK LEADER 6TH**

★ 4 Grade 1 Frozen Embryos ★

Donor Dam - HC Sparkle Delight 2X

Sire - Coalpit Creek Leader 6th

Consignor: Horseshoe Creek Farms Ltd - Weyburn, SK

Another excellent embryo package that will result in thick, easy fleshing sound made calves. Coalpit Creek Leader 6th is a true beef bull and he is proving this through his outstanding progeny at Ralph Larson's Y Lazy Y Ranch in Montana. Sparkle Delight 2X is one of the most impressive females in our herd, and she has already had embryos sold to 4 countries. Some of very best ET calves this year are out of her. We were unable to bring live cattle to this sale this year, so the decision was made to offer some of the best genetic embryo packages we have to offer.

These embryos are exportable to most countries and we will guarantee a minimum of 2 pregnancies at 70 days following implantation providing an experienced embryo technician is used.
