BULL & FEMALE SALE

Canada's Only Leptin Tested Gelbvieh Bull Sale

Monday
MARCH 17
2014 at 1 PM

Silver Sage Community Corral, Brooks, Alberta

Twin Bridge Farms Ltd. & Guests *Gelbvieh* BULL & FEMALE SALE

Welcome to the 3rd Annual Twin Bridge Farms and Guests Bull and Female Sale. We are happy to have both the Ness family back again this year as well as Carlson Cattle Company joining us. Like many Gelbvieh breeders we purchased our first bulls and females from the Carlsons so it is an honour to have them as part of this sale.

What a year 2013 was for the beef industry. We saw record high cull and calf prices as the demand for beef increases. It was great to see steer calves selling for over \$1000 last fall and some top end bred females going for \$2000. With barley prices so conservative the feedlots are going to make a big profit on those expensive calves. They are sure to be willing to pay big prices again next fall. It is more important than ever to be using the best genetics we can and keep a youthful herd sire battery. More than ever each extra pound we can raise and every cow that is in calf makes a bigger difference on our bottom line.

On March 17th the bulls on offer have those genetics that will progress your operation. There are performance bulls to raise those scale busters in the fall, low birth weight bulls to make calving season stress free and of course all of them should produce those females that the Gelbvieh breed is known for. Back by popular demand there will be a select offering of females again this year. They meet the same high standards as the bulls.

New this year the sale cattle will be Leptin tested. The Leptin gene causes cattle to produce leptin, which is associated with appetite. This increase in appetite in turn increases weight gain, carcass grade, milk production, fleshing ability and ultimately profit. Cattle can have no copies of the gene (CC or 0% positive), one copy (CT or 50% positive), or two copies (TT or 100% positive). With each additional copy of the gene the traits above will increase in comparison to animals that are genetically similar otherwise. Contact either myself, Lon or check out www.carlsoncattlecompany.com for more information.

All cattle selling will be vet checked and the bulls will be semen tested. Sellers are willing to keep purchases until Apr. 15 and deliver them within 200 miles free of charge. Please contact sellers ahead of time if you would like purchases kept later or delivered farther so we can work with you.

Please join us on March 17th and let us be your host for St. Patrick's Day. Make sure to get there early for complimentary lunch and stay after for refreshments and socializing. I'm sure there will be some green beer.

Sincerely,
Aaron Birch

Welcome to Twin Bridge Farms and Guests 3rd Gelbvieh Bull and Female Sale.

The Birch family has been very active in the Gelbvieh industry for a number of years. They continue to breed and add the best that Gelbvieh has to offer. This offering of Gelbvieh genetics is proof of the commitment to the breed and the continual improvement of the beef industry.

Their guest consignors are Keriness Cattle Company - Airdrie, AB and Carlson Cattle Company - Magrath, AB. Kert and Joe Ness continue to develop a good purebred herd of Gelbvieh females. You will appreciate the performance and growth potential of their bull offering. The Carlson name is an old and recognized name in the Gelbvieh business; it is exciting to welcome Lon and Lorraine into the sale. Carlson Cattle Company is offering a stout set of yearling purebred bulls, commercial bulls and four fancy yearling heifers. I am sure will be pleased with this strong offering.

The bulls from these three breeding programs are stout, thick, good haired individuals who will add calving ease, performance and maternal traits into your cow herd. The market in the beef industry is setting records like we have never seen before. If you want to capitalize on this great market you need to breed the best genetics possible. These Gelbvieh cattle will increase your bottom dollar and add to your profitability.

If you have any questions please contact Ron, Aaron, Lon, Kert, Joe or myself. If you are interested in purchasing individuals but are unable to attend the sale on March 17th please contact Don Savage Auctions and your order will be handled in a professional manner.

Yours truly,
Don Savage

GENERAL INFORMATION

Terms of Sale: Are cash or cheque at par, payable to the clerks of the Sale on sale day. U S funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. Full payment shall constitute a final sale and then registration papers will be transferred.

Health: All Sale cattle meet the Canadian Health standards. Foreign buyers are responsible for knowing the current Health standards of their country.

Guarantee: All Sale cattle are guaranteed under the terms and conditions of Sale as recommended by the Canadian Gelbvieh Association.

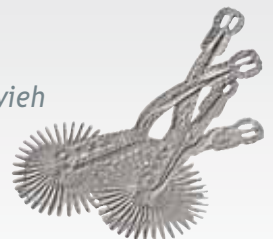

Mail Bids: If you are unable to attend the Sale, but wish to make a purchase, please feel free to contact any of the Sales Staff or Don Savage Auctions and your order will be handled in a professional manner.

Insurance: Ownership commences to the purchaser as soon as the animal is sold. Insurance agents will be present sale day to look after your insurance requirements.

Although every precaution will be taken to protect the safety and comfort of the buyers neither Don Savage Auctions or the consignors assume any responsibility in these matters and disclaims any liability, legal or otherwise, in the event of an accident or loss of property.

Once again we are very excited to offer a great set of Gelbvieh bulls. We are very proud of this year's offering and are confident they will meet your expectations.

For over a decade we have selected Gelbvieh females and sires that meet our high standards of performance, calving ease, maternal traits, soundness and conformation. We have no use for poor bags, bad temperaments, poor fertility and low vigor calves. Through an extensive AI and ET program we have been able to take advantage of the best Gelbvieh genetics in North America. We base our breeding program around the commercial cattle industry. We strive to produce cattle that meet the demands at every step in the beef industry.

We develop our bulls in a 5 acre area to give them lots of room to stay athletic for breeding. They are hand fed a low starch ration and free choice hay to promote soundness and longevity. All our sale cattle are on a full herd health program and are DNA parent verified. Check out our website www.tbfarms.ca for more information, pedigree pictures and videos of the sale lots.

If you have any questions or would like to view the bulls and their dams before the sale don't hesitate to contact us. We look forward to being your hosts on sale day.

The Birchs

Lot 1 - AWB Birch's Heavy Hauler 14A

Lot 2 - SA Birch's Load Up 61A

1

100	772	1423	8 .31	3.5 .33	75 .29	104 I+	27 .23	65	6 .24

Heavy Hauler is a powerful bull that has a rare combination of length, depth and thickness without being extreme in his frame. He was part of our show team last fall which is no surprise with the pedigree he is backed by. The Morgan cow family has excelled in our program with 7 descendants represented in this year's sale. We consider his sire to be the best AI sire we have ever used. His daughters are exactly what we want: easy fleshing, high producers, perfect udders and mid-sized. The few sons we have produced from him have done well, including Iron Man who sold to Nelson Gelbvieh and sired their highest selling sire group last spring. ADG 4.11 lbs. Homozygous polled 100% Leptin positive.

90	697	1193	9 .29	1.4 .32	63 .27	83 I+	35 .20	67	8 .20

Here is the only Ricco son we have this year. After his sons highlighted last year's sale Ricco was only out for a few days before getting foot rot in the 2013 breeding season. His offering may be small this year but this is a ripper of a calf. He has lots of natural muscling, length and thickness with a ton of hair. He is also backed by a top producing Dam of Merit dam sired by the Carlson bred Holman sire. A daughter was sold at Agribition to Maple Grove Gelbvieh and a full brother to Load Up sold in our first sale to Russel Kulyk. 50% Leptin positive.

80	756	1375	13 .30	1.3 .32	66 .28	97 +	36 .22	69	11 .23

Momentum is a cherry red, smooth made bull that can be used on heifers without sacrificing performance. With only an 80lb BW he is one of our top gainers at 3.9 lbs/day. His dam is a full sib to our Captain sire and is a female that we are positive will continue to produce the right type, just like her dam. By combining the Morgan cow family and Tiree you can be assured that this herd sire prospect will be consistent in siring cattle that include all the desirable traits of the Gelbvieh breed. Homozygous Polled pending. 100% Leptin positive.

86	696	1204	12 .30	1.5 .33	63 .28	81 +	31 .22	62	11 .23

Baxter has a surprising amount of thickness considering he could be used on heifers. His pedigree is stacked with three generations of sires that not only calve easily but make great females. The Beryl cow family is one of our "up and coming" group of females that have really started to set themselves apart the last few years. Although they may be smaller framed females they produce big calves that stand out. Homozygous Polled pending. 50% Leptin positive.

Here is a calf that is going to get a lot of attention on sale day. He is very smooth fronted and angular with a wide topline and big hip. He really showcases what his sire can do. His dam was part of our show sting as a bred heifer and did a great job raising her fist calf. She also has an impressive pedigree. Her sire, Master Plan, sires progeny that have a rare combination of thickness and eye appeal and have done well in show and sale rings across North America. Her dam is our donor female that was our pick of V&V Farms' heifer calves and has reached Dam of Merit status. She has already produced some great individuals in our program including our junior herd sire AWB Birch's Blk Powder 37Z and her 2013 son that sells in this sale. Homozygous Polled pending. 50% Leptin positive.

Cruise would be considered one of the easiest calving bulls in the pen. Along with a low birth weight he has good neck extension, is smooth shouldered and long spined, all characteristics of a good heifer bull. Like all Tiree progeny he is very sound and correctly made. With both Exposure and Tiree in his pedigree he will produce great females. His young dam has a great udder and is sure to become a top producing female. 50% Leptin positive.

Hope Opener is a typical Exposer son. Balance of length, depth and thickness in an easy fleshing package. His dam has become a consistent producer since she was purchased from the Milne Ranch at Agribition. A son is working for the Bertschy family at Milo and a daughter sold in last years sale to Foursquare Gelbvieh. The Exposure daughters are becoming some of our best females so Home Opener should sire the same.

This herd sire prospect is going to make a lot of friends sale day. You don't often come across a bull, in any breed, with the amount of volume and capacity that Bulldozer has. When looking at him you can just imagine those thick soggy calves the feedlots search for and those broody females that we all want in our cow herds. He will be sure to make a big impact on someone's program. It is no surprise this bull is from the Verna cow family. His eye catching dam is a Dam of Merit and grand dam is a Dam of Distinction. A maternal sister sold in last year's Gelbvieh Wish List Sale to Davidson Gelbvieh. 50% Leptin positive.

Happy Hour is another strong heifer bull candidate. His grandsire was purchased from Carlsons and was used as our heifer bull for many years. Our only regret with Kevin is that we didn't keep more of his daughters since they made great cows. At 11 years of age Happy Hour's dam has a picture perfect udder, calved in the first cycle and is sure to produce more great calves in the future. She has reached Dam of Distinction status. A daughter sold in last years sale to Wade Davidson and all her other daughters we have retained. 50% Leptin positive.

When Yoicks was purchased this is the type of bull we wanted him to produce for us. Lots of length, thickness and depth with some added eye appeal and hair. This calf took off growing as soon as he hit the ground and was our heaviest calf at weaning. His grandsire Full Exposure is an AI sire we have used with good success. Most notably he sired Gail's 4-H heifer that recently beet out all other breeds at the Medicine Hat Pen Show to be Grand Champion 4-H Bred Heifer. Daytona's grand dam was purchased through the Agribition Gelbvieh sale. 50% Leptin positive.

Wrangler is a definite sale feature. He has that perfect balance of phenotype, genotype and pedigree that we expect when we match up the top individuals in our program. His dam was our pick of the V&V Farms 2009 heifer calves and she has met and exceeded our expectations. Through embryo transplant and natural means she has already produced an impressive set of progeny. A son, AWB Birch's Blk Powder 37Z ET, was retained last year for our own use, a daughter was the high selling red heifer calf at the 2013 Wish List Sale and three more daughters have been retained in our program. One of these is the dam of the 13A bull in this sale. Even with being flushed Wruffle has already reached Dam of Merit status. If it were not for his brother already working in our program this bull may not be for sale. Homozygous Polled. 100% Leptin positive.

99	768	1272	6.29	4.4.33	71.27	100 I+	31.18	66	7.19

Lots of top and a thick hip on this Yoicks son. He stuck out at a young age with his natural growth, muscling and eye appeal. His dam is a high producing Gavin daughter from the Red cow family. This family started with Ross's 4-H project and the high production value has carried through the generations. A son sold last year to Roy & Gaye Lucas and a daughter was in our show string as a calf and is now a top females. Homozygous Polled pending. 100% Leptin positive.

This powerful calf is most likely dad's favorite in the pen. This is in part because he is from what we consider to be the best cow family in our program. The Marion females consistently have perfect udders are easy fleshing and never miss. This includes Monopoly's broody dam who is exactly the type of female we strive to produce. Her past sons have sold to Eyot Valley Gelbvieh and Myron Machacek. Not surprisingly he is 100% Leptin positive.

Marshall has that rare combination of both power and style that is hard to pass by, which is why he was part of our show string last fall. Although the youngest in the pen he sure doesn't look it. He was our top gaining bull at 4.19 lbs/day. With so much performance he is very smooth fronted and has plenty of extension so calving from him should be a breeze. This is what we have come to expect from his amazing dam, another Marion female, that we have flushed in our ET program. Her sons sold last year to Circle T Gelbvieh and Hawkeye Ranches and we have retained 4 daughters in our program. Marshall is a definite herd sire candidate. Homozygous Polled. 50% Leptin positive.

High Roller is a thick made calf from a genetic combination that has worked well for us. Last year we mated nearly all our Tthree daughters to Captain. Captain has worked very well to both decrease birth weights while still increasing weaning weights. These curve bending traits can make a major impact on your bottom line. His dam is very closely related to one of last year's high sellers. She is a moderate framed female that is easy fleshing with a great udder, typical of the Tthree daughters. Her son sold last year to Brenda Sander. 100% Leptin positive.

Total recall is a soggy made bull that should make some great females. We are calving out our first Totally Exposed daughters and they have really hit their peak once in production. His dam is a full sibling to Captain and was shown at Agrigition as a calf where she placed high in class. There are a lot of proven genetics in this bull's pedigree. He is one of three bulls this year from the Morgan cow family that all tested 100% Leptin positive.

Infinity was unfortunately orphaned in July which put him at a disadvantage. However he has really impressed us with how he has caught up. This bull may be overlooked sale day by some but he definitely has the genetics to do a lot for someone's program. He is another calf that could work well on heifers but also has the performance to sire heavy weaning weight calves. His sire's first calf crop has really done well with his daughters being at the top of our replacement pen. We were really disappointed to lose his dam as she was one of the few Spiderman daughters we were able to retain, and they are great cows. Her son sold in last year's sale to Honeco Farms. 50% Leptin positive.

Outlaw is a smooth, thick made calf from one of our top females. Lexxus was purchased from Fladeland Livestock as one of the high selling heifer calves at the Agrigition Gelbvieh Sale. She placed second in class to the junior heifer calf champion and was also a heifer calf finalist in the Gelbvieh Sweetheart Futurity. Combining her with Off Road has made a well rounded bull that will fit well in any management system. Don't let this bull's younger age fool you; he has a lot to offer. 50% Leptin positive.

Macey 82A is a feminine heifer that will turn into a smaller framed, easy fleshing brood cow that will always out produce herself, just like her dam. We have used her sire on our heifers the past few years and have yet to assist one at birth. This female would work well to produce those easy calving bulls that are in high demand. Fertility and fleshing ability is built into this cow family that originated from the John Milne herd. Her grand dam is a Dam of Merit.

Jan 186A is a younger Yoicks daughter that is a good representation of the great group of heifers we retained from him. She also has a very interesting pedigree on her dam's side with all Carlson breeding. Her grand dam was one of the original five Gelbvieh females that we purchased and they really sold us on the breed. Her dam has yet to miss with two other daughters being retained in our herd and a son selling last year to Rick & Bryce Strate. A daughter's son sells in the sale.

**CARLSON
CATTLE COMPANY**
Lon T Carlson & Lorraine Beaudin
Box 86, Magrath, AB T0K 1J0
Phone: 403/894-3413

Lon and Lorraine would like to welcome their purebred and commercial buyers to join them at this year's joint sale at the Silver Sage Community Corral in Brooks, Alberta! After years of selling bulls private treaty, they are very excited to have been invited to participate in Twin Bridge's 3rd Annual Bull Sale.

The Carlson's have been raising quality Gelbvieh stock for over 40 years - first importing semen directly from Germany in 1972 and raising Gelbvieh stock ever since. Albert and Lon participated in the show circuit for many years and continue to actively promote the breed both locally and worldwide. Their herd name (Gold Star) may still be familiar to many breeders. The Carlson's strive to raise quality Gelbvieh cattle and as such they have been genetically DNA testing the animals for the Leptin gene since 2006. In early 2011, Albert retired and Lon and his wife Lorraine (Beaudin) took over the operation; Carlson Cattle Company LTD, located near Magrath, Alberta, was born (formerly Carlson Gelbvieh Farms Ltd.).

They are very pleased to be offering 9 head of registered purebred bull calves along with 5 crossbred bulls in this year's sale. Please join them for a meal and a beverage, or at minimum stop by to catch up, as Albert and Lon would like to reconnect with breeders in the industry. Stop in anytime at the acreage near Magrath or check us out at carlsoncattlecompany.com.

Hope to see you at the sale!

Lon Carlson & Lorraine Beaudin

43

Black Polled Commercial Bull
CCC 3A
 01/17/13

SIRE: GELBVIEW/ANGUS
 DAM: 37W

BW: 92 WW Oct 17 - 812

This commercial bull is a big, long, performance minded herd prospect. His dam is one of our yearly top performers with an outstanding udder. He comes to you out of a black half blood cow that goes back to Ridge Star Lucy 94L and a red half blood top performing bull out of Gold Star19S. 50% Leptin positive.

Lot 43 - CCC 3A

44

Polled Commercial Bull
CCC 9A
 01/24/13

SIRE: GELBVIEW/ANGUS
 DAM: 107U

BW: 98 WW Oct 17 - 937

9A is one of our top performing commercial bulls with extra depth and spring of rib combined with excellent muscling to make this maternally strong bull very appealing. He is the product of one of our eye appealing purebred Angus cows and a half blood high performing Gelbvieh sire, making him 75% Angus. He retains some of the stronger Gelbvieh traits making him a good crossbred herd sire. 100% Leptin positive.

Lot 44 - CCC 9A

45

Polled Commercial Bull
CCC 10A
 01/24/13

SIRE: GELBVIEW/ANGUS
 DAM: 197S

BW: 99 WW Oct 17 - 897

Here is another commercial bull that exhibits thickness, length and eye appeal. His 8 year old Dam, ATC 197S, is one of our maternal purebreds that goes back to Gold Star 5D. Our high performing half blood Gelbvieh bull was his sire, which makes him a 75% Gelbvieh bull. 10A is another very complete and well balanced herd bull. 50% Leptin positive.

Lot 45 - CCC 10A

95	692	1313	5 .28	3.2 .34	68 .27	82 I	32 .17	66	7 .18

Alesha is an extremely long and deep heifer with solid performance. She has above average EPDs for BW, WW, YW and Milk. Her January 24 weight was 1212 lbs with an ADG since weaning of over 3.5lbs per day—a trait likely to pass on to her offspring. Her thick healthy hair coat correlates with many good qualities including fleshing ability. The dam had a perfect udder and you should expect the same in this replacement.

100	703	1273	5 .28	5.1 .34	62 .27	70 I	30 .17	61	6 .18

This black prospect heifer is a granddaughter to Davidson Harmony 446J and ATC Gold Star 4W. She is a fine fronted female with great eye appeal - despite her lack of cooperation picture day! The dam, Gold Star Lale 268L, continues to maintain good feet and udder which is important for longevity. Alexa has a mild disposition, moderate thickness, with a great hair coat and would make an excellent addition to any cow herd.

We are very pleased to be invited by the Birch Family to be a part of their 3rd Bull Sale. We really enjoy the Gelbvieh breed and the friendliness of all the people that we have met over the last 17 years.

We have a 50 head cow herd of Gelbvieh purebred females that are owned by us individually. Our common interest is raising good stout Gelbvieh cattle. The Ness guys make their rounds at the shows and sales and enjoy talking with old friends and making new ones.

We are offering six top quality herd bull prospects and two replacement females that will make excellent brood cows. Looking forward to visiting with you in Brooks.

BULL BREEDING GUARANTEE

Thanks

to all buyers
& bidders

All guarantees are between the buyer and the seller.

All bulls offered and sold, except calves at side, are guaranteed breeders irrespective of age. All bulls after reaching the age of 15 months must be capable of settling 7 head or 75% of the eligible normal healthy breeding age females he is running with for a 90 day period, whichever is the lesser. No guarantee regarding the freezing ability of a bull's semen is made or implied in the sale of a bull unless covered specifically in a written contract.

In the case of a complaint regarding a bull's breeding guarantee the buyer wishes to enforce the provisions of the Code shall report the same in writing to the seller enclosing a report prepared by a licensed veterinarian within 6 months of purchase or the time the bull reaches the age of 15 months whichever occurs later. The bull shall be returned to the seller at the buyer's expense. The seller may replace the bull with a bull of equal quality or refund the purchaser's price of the bull or he may attempt to prove the bull a breeder under the terms of this clause within 6 months. If the bull is proven to be a breeder within the 6 months provided he shall be returned by the seller to the buyer and the buyer's expense. If he is not proven to be a breeder then replacement or, at the option of a seller, a refund is mandatory. Under no circumstances will a seller be liable for more than the purchase price of the animal sold.
