

This has definitely been a year for change for the Birch family. Long periods of "empty nesting" takes some getting used to for Ron & Carol. Aaron and Joe have relocated to Saskatchewan and the phone takes the place of the pasture talks. Ross works off the farm in the winter and farms

with us in the summer. After completing college this spring, Gail plans on returning to the farm. Her love being the cattle. Owen is now working in Lethbridge and helps out often.

The one thing that hasn't changed is the bull sale. The same people are still offering genetics that will fit the top end of both commercial & purebred herds. We are excited to once again offer a variety of good quality genetics.

We thank and appreciate our previous buyers and always look forward to new interest. Please call for inquiries or to arrange a pre-sale look at our bulls and/or the herd. We look forward to seeing you!

The Birch Family Twin Bridge Farms

Welcome to the 7th Annual Twin Bridge Farms & Twin View Livestock and Guest Bull Sale.

The beef market has been strong and profitable again this year, the common denominator is that good cattle will still bring you a premium at the market. Pounds of beef gained will always improve your profit margin. The best way to attain those extra pounds of beef is by adding the Gelbvieh influence and building a solid foundation in your cowherd.

Twin Bridge Farms and Twin View Livestock have established themselves as top breeding programs to add powerful seedstock genetics from. The bulls in their lineups this year reflect the new performance sires that they have included to continue to improve the programs. Twin View Livestock had another terrific year showing with championship awards and each of the consigners produced high selling females at the Gelbvieh events. Those Championship bulls will headline this already power set of bulls that will be warranting your attention. It is no accident that cattlemen are paying attention to their successes. The drive to Brooks will be well worth your time and investment.

The guest consignor is Keriness Cattle Company, Airdrie, AB. Look for exciting young herd sire prospects from this well established breeding program. Joe and Kert look forward to discussing their sale offering with you.

The bulls from these herds are stout, thick, good haired prospects that will add calving ease, performance and maternal traits in your cowherd. If you have any questions about the cattle please contact the consignors or myself. If you are interested in purchasing next herd sires on March 12, but are unable to be with us on sale day, please contact me on my sale day phone at 403.803.4434.

Yours truly, Don Savage

From Twin View Livestock, welcome to our 7th Annual Bull Sale! It's hard to believe we have been hosting this sale for 7 years; I guess time flies when you are having fun. There have been some big changes in the last year for us including relocating to Parkbeg, Saskatchewan, however the depth and quality of the bulls, who now carry the Twin View name, is the same or better than previous years. Although a major undertaking, the move has been an extremely rewarding decision and absolutely the right one for us.

Our bulls have been developed on a low starch pellet and are given access to a large run to keep them athletic and increase longevity. This system has worked very well and the bulls have stood up in many different management

systems. The bulls are cataloged in sire groups for your convenience. We have tried to include as many pictures of the bulls' dams as possible. We know many of our customers retain their own replacement heifers so we feel this is a useful tool to show the quality of the females these bulls come from. The bulls will have videos available on liveauctions.tv and the sale will once again be broadcast online. If you do plan on bidding online we encourage you to contact myself or Shari Leachman ahead of time so we can point you in the right direction.

We are thrilled to once again have our friends, the Ness family, Kert & Cindy and Joe & Brenda, joining us. They have been with us from the start and we are so happy with the continually improving cattle they bring to the sale. They promote their program and the Gelbvieh breed throughout western Canada and you won't find people more enthusiastic about the breed or as genuinely nice people.

Promoting and advancing the Gelbvieh breed and our program is very important to us. We have been fortunate to have had success in the show ring the last couple years, including being the 2017 Premier Breeder and Premier Exhibitor at Agribition and Manitoba AgEx last fall. We want to stress that we do not raise "show cattle". We have been fortunate to have judges that appreciate the real world value in our cattle, genetics that are profitable for the commercial cow/calf and feedlot operator. In addition to showing, I currently serve on the Canadian Gelbvieh Association board and Joe is a director on the Manitoba & Saskatchewan Gelbvieh board.

I am confident you will find genetics on March 12th to move your program forward. Whether it's a bull to increase performance, to increase calving ease or make the ideal females the Gelbvieh breed is known for, there will be a bull to fit your needs. It also includes your only opportunity in 2018 to buy Canadian semen on the two time Agribition Reserve Champion bull, The Boxer. Plan to come early for lunch and stay after the sale for our hospitality. If you have any questions I encourage you to contact myself, any of our sale staff or contributors and we will be sure to help you in any way we can.

Terms and Conditions

Terms of Sale: Cash or cheque at par, payable to the clerks of the sale on sale day. US Funds will be accepted at the current rate of exchange. No release will be given until satisfactory settlement has been made. Full payment shall constitute a final sale and then registration papers will be transferred.

Health: All cattle meet Canadian Health standards. Foreign buyers are responsible for knowing health requirements of their location.

Health: All cattle meet Canadian Health standards. Foreign buyers are responsible for knowing health requirements of their location.

Guarantee: All cattle are guaranteed under the terms and conditions as recommended by the Canadian Gelbvieh Association. For a copy of this guarantee contact the seller or the Canadian Gelbvieh Association office.

Mail and Phone Bids: Should you be unable to attend the sale, any member of the Sale Staff or the consignors will assist you to the greatest extent possible. Insurance: Agents will be available at the sale. Ownership commences as soon as the animal is sold.

Although every precaution will be taken to protect the safety and comfort of the buyers neither the Sales Management nor the consignors assume any responsibility in these matters and disclaims liability, legal or otherwise, in the event of accident or loss of property.

Every now and then a bull comes along that, from day one, commands attention and a second look. There was little doubt Bad Habit would be a great one from the moment he was born. We were truthfully hoping for a heifer calf however a red full brother to Bojangles was certainly not a disappointment. The Touchdown 166W progeny are developing a great story in the Twin View program including lot 2, Bojangles, who topped this sale two years ago and a number of 166W daughters who are now in production for us. Bad Habit is tremendous in his make with massive rib shape, intense depth of flank, great softness throughout, and ultra sound foot and leg design. Many admired him for his deep red, thick hair coat while he stood display for us throughout the fall. He was Reserve Calf Champion in Brandon, Senior Calf Champion at Agribition, a top 4 finalist in the Canadian Bull Futurity and a member of our finalist pen of bulls at Medicine Hat Pen Show. His dam, Boe 189A, has now created a trifecta of herds bulls; first with Bojangles, then Knock Out who we used ourselves, and now Bad Habit. She has become a Dam of Merit for the Canadian Gelbvieh Association as a result of her production. We can't say enough great things about Bad Habit and have absolute confidence in the herd bull he will be for his new owner. He sells in his entirety.

SLC TOUCHDOWN 166W Sire of Lot 1 and 2

A rare opportunity knocks with AWB Birch's Bojangles 24C! Not often does a herd bull of this calibre come available in the prime of his life. Bojangles was our high seller two years ago to the great people at Hawkeye Ranches who have purchased a number of bulls from us for their progressive commercial operation. We kept a piece of him for ourselves because we saw unlimited potential for him in our heifer pen. As it urmed out, we were able to lease walking rights as a yearling while Alan used him through Al. We campaigned Bojangles heavily that year before he moved over to Hawkeye. We now know we hit the nail on the head when it came to using Bojangles in our heifer pen. He calves like a dream! His first group of sons averaged 86 pounds at birth and heifers 84 pounds but more importantly his calves are absolutely designed for calving ease. They are long fronted, tidy skulled and come easy. Perhaps even more impressive is their ability to grow and perform. All but one of his registered progeny indexed 100 or above at weaning. Among these was AWB Twin View Rush Hour 91E who was selected early this summer by the great people at Ledgerwood Gelbvieh in Washington, USA. Bojangles has continued to grow and develop into an impressive breeding bull and has a lot of miles in him yet. He sells simply because his duties in the heifer pen have come to an end at Hawkeye since over half their replacements are his daughters. Both Hawkeye and ourselves will continue to use him through AI however he sells in his entirety here. Take note that lot 1 is his full brother and a third maternal brother saw breeding duties for us here at Twin View. Look for that sire group to be highlights next year! Lots 3-5 are the first sons of Bojangles to be offered and are a testament to the potential Bojangles has to make an indelible impact on the Gelbvieh breed.

GCC BOE 88T

AWB BIRCH'S KNOCK OUT 25D Maternal Brother to Lot 1 and 2 Herdsire at Twin View Livestock

Night Rider is from our show pen and is extremely cool! He has as much volume as any bull in our offering and seamlessly blends from chest floor to chin and has a very tidy skull for ease of calving. He is as impressive on paper as he is in the flesh with generations of calving ease bred into his pedigree and a calving ease EPD of 13. We feel he would work well on heifers and still offer major performance. He ranked #5 at weaning weight and #2 at yearling weight off a first calf heifer. Night Rider is a bull we are proud to offer for your appraisal.

Class Act is very appropriately named as he is one classy dude! He carries himself with real presence and is quickly noticed because of his liver red colour. A light 74 pound birthweight, ideal body design for calving ease, birthweight EPD of -1.3 and a calving ease EPD of 10 make him a valuable prospect for the heifer pen. Like Bojangles, he is big middled and gets on the move with ease. It makes us proud as breeders when our young females do every bit the job as our mature cows. His dam has an impeccable udder with beautiful teat placement and size. She too is liver red, building colour consistency if you're looking to darken your calf crop.

This lengthy calf is sure to put power into his progeny. Out of a first calf heifer, this calf stood out all along. He will standout on sale day! Homo polled test pending.

Lots 6, 7 and 8 are ET flushmates from the mating between Gayle 48Z and VV Zake. The combination of two national champions provided much excitement for us and results are certainly proof of that. We couldn't be happier with the outcome! Two flushmate sisters in the replacement pen at Twin View are simply awesome including AWB Twin View Gayle 78E ET who we consider the greatest Gelbvieh female we've produced to date. She was the undefeated Calf Champion this fall and created quite a buzz wherever she went. We really admire the front third each of these bulls has. They are so smooth made, have exceptional extension and will provide ideal calving ease for mature females without compromising performance. Where these bulls will really shine however is the females they will produce. Sons of Gayle 48Z are already working for for MacDougall Ranch and Lomond Grazing.

Lot 6 is Renegade (AKA Gilbert) who you will be hard pressed to find a more kind disposition in any animal ever! Renegade was a member of our show team and was selected Bull Calf Champion and Reserve Champion Bull at Manitoba Ag Ex. He was also a member of our Finalist pen of bulls at Medicine Hat. Renegade is the ultimate in smooth design and is exceptionally long sided. DNA tested non-dilutor.

Lot 7 is Maynem who is more rugged in his design and comes complete with a massive top, huge hip and the built in ability to create outstanding females down the road. DNA tested non-dilutor. He will be especially impressive as a mature bull and will be a great buy no matter the price!

Lot 8 is King. What can you say, both parents National Champions. His full siblings got a lot of interest shown last fall by Twin View Livestock. He speaks for himself. Homo polled test pending.

DDN 39C was the Canadian Bull Futurity Champion in 2015 for the Nelson family and we quickly admired the growth and performance he displayed at a young age. He provides an outcross pedigree we saw value in and we were confident he would sire outstanding females. The best part is that his sons are every bit as good as his daughters.

Iron Fist will go down as one of the great bulls we have produced in a number of years. Liver red and proud, ultra stout and hairy, super soft in his middle third and throughout, highly maternal and impressive from every angle are just a few ways to describe this elite future herdsire. Iron Fist hammers the ground squarely on a massive foot. We can imagine how extremely impressive he will be as a mature bull! He is the result of an embryo flush on one of our long time favourite cows, Rainbow 30U. A flushmate sister in the Twin View replacement pen is one we are watching closely with a bright future ahead of her. Iron Fist comes from a long line of successful siblings including maternal brothers who've went to work at Nelson Gelbvieh, Nish Gelbvieh and Little's Country Farm as well as maternal sisters working for us and the 2014 Sweetheart Champion. There are endless opportunities when it comes to a bull of this calibre. His sons will be hugely impressive and his daughters will be elite females. You really can't go wrong here!

Crosby continues to be a trusted and tried, sound and dependable breeding bull for us who provides adequate calving ease for use on heifers and yet significant performance. His progeny get better year after year and his daughters, who are now in production, are model Gelbvieh females with stunning udder quality. He is admired by all who have seen him and he becomes increasingly impressive to view as he matures. We believe this is his best group of sons to date!

Slap Shot is an impressive Crosby son who has a great deal to offer. Patterning much like Crosby himself, he is extremely long sided and very smooth made with large testicular development. He has a great disposition and was on our short list to be part of our Medicine Hat display pen. His dam is a model Gelbvieh female who consistently weans a great product. She has been honoured by the Canadian Gelbvieh Association as a Dam of Distinction in 2017 after being a Dam of Merit in 2015 & 2016. We think Slap Shot is the type of bull that would be a great option for a first cross on Angus or Hereford based cows to add major pounds at weaning without compromising calving ease and maternal capability.

Churchill was purchased from Thackeray Land & Cattle and this is his first set of sons to be offered. He is a very moderate, stout made individual whose sire and dam impressed Aaron & Joe a great deal when they found Churchill at Thackeray's. We've strategically mated him to larger framed cows and have admired the muscle shape he has left in his progeny. This sire group is not large in numbers but they are big in quality.

Time and time again Molly 204U has done a standout job! Marking them with her cherry red stamp and overall eye appeal, this cow family has done wonders for Gail and her growing herd. In 2015 her son sold to V&V Farms as one of the high selling bulls. This calf will sure do the same thing to your upcoming calf crops. Homo polled test pending. SA BIRCH'S VERNA 82S Granddam of lot 18

Crowfoot was purchased in dam from the 2016 Wishlist Sale where Truffle 66C was the high selling bred female. Being a maternal sister to VV Wruffle Me 18W, who's influence can be seen throughout this offering, and a daughter of the proven Star Bucks made her a great asset to us. There is no doubt in our mind that she was worth every penny! As a two year old, she weaned Crowfoot as the 4th weight ranking bull in the pen. Much like his dam, Crowfoot is big middled and very long sided. We love the extension from his chest floor up into his skull and through his shoulder. With a moderate 80 pound hirthweight a calking ease EPD of 12 and a hirthweight EPD of moderate 80 pound birthweight, a calving ease EPD of 12 and a birthweight EPD of less than zero, we believe Crowfoot has great potential for use on heifers. He was DNA tested to be a non-dilutor so there is no risk of grey calves when mated to black cows. We believe so strongly in what Crowfoot has to offer that we would like to retain in herd semen interest for our use at Twin View. This outcross pedigree combined with the overall design of Crowfoot make him a great asset to us and his new owner!

Ranch Hand is tremendously soft and loose made with a big hip and rib. Other than a little lighter colour, he is a carbon copy of Wrangler. He comes with a very cool disposition and is supple and correct in his movement. He is a full brother to the bred heifer we campaigned last fall, AWB Birch's Faithful 39D. She became the winningest yearling in the breed last year as division champion in Brandon and Agribition as well as winning the Gelbvieh breed in the First Lady Classic. She is now doing a beautiful job on her first baby. Another maternal sister was the high selling female at the 2014 Wishlist to Bluff Island Stock Farm and a maternal brother sold to MacDougall Ranch in British Columbia. The Faithful cow family has a long history of being highly productive females and Ranch Hand's dam, 132Y, is certainly carrying on that tradition. Take note of his extremely balanced, above average set of EPD's, consider his ability to create high quality females and then evaluate him in the flesh. We are very sure you will be impressed with what you find!

AWB BIRCH'S FAITHFUL 132Y Dam of lot 21

AWB BIRCH'S FAITHFUL 39D Full Sister to lot 21

From his hind quarters to his head, this calf is smoothly put together. He's the most eye appealing out of all the Wrangler sons. He'll be able to cover some miles this breeding season. A maternal brother sold to Rick and Bryce Strate and we have multiple sisters in the herd.

FLF BEACH BOY 39M

Dam: FLF BEACH GIRL 110P FLF LAURA 132K

Boogyman is a real powerhouse Aaron and Joe have admired since he was a calf at Agribition. He was campaigned through his maturity and never stood below Reserve Champion Bull. His mother is a beautiful female who was also a part of the Fladeland show string at one time. When the good folks at Smithers Land & Cattle stepped up and got him bought, we were able to secure a small semen package. Boogyman breeds very true stamping his progeny consistently and leaving enormous performance while increasing frame size where needed. Twin View has three replacement heifers in the pen that are flat good and a few more on the ground this spring. Big power and big performance in Boogyman!

Terror is a high performing son of the great Boogyman who is sure to leave a highly marketable set of sons for his new owner. While touring the good folks from Ledgerwood Gelbvieh of Washington this summer, Terror was a bull that stood out for them. Samee's comment was, "That bull is longer than a well rope!" His dam is a tremendous female from the Unger dispersal who consistently produces highly marketable, performance oriented cattle. With Terror at her side, they certainly commanded your attention! Maternal brothers have worked for Roy Lucas and Lomond Grazing. We feel crossing Terror with British based cows would yield outstanding results while providing hybrid vigour to put big time cash into your wallet.

Keriness Cattle Co. The Ness Family 403 852 7332

Welcome Friends, new and old! The Ness family is excited and proud to be participating again in the Twin Bridge Farms and Twin View Livestock 7th Annual Bull and Female Sale. We appreciate how this sale grows in the strength of bulls offered by each of the programs and ourselves as we strive to meet all customer's standards, getting better year after year.

This year we are offering 10 bulls to the sale that we feel are a good representation of our program including a group of sons out of Cowboy, our main herd bull as well as sons of Bobo, Stetson, and Ronny Rig who have also all been herd sires for us. We are once again offering 3 heifers directly from our replacement pen that we feel have a lot to offer. If they were not offered here, we would definitely be keeping them for ourselves.

Our bulls have been fed free range soy pellets after weaning and hay along with personal bucket feeding of a corn ration. We individually monitor each bull and heifer by hand feeding twice a day.

We want to thank Carol for putting on the lunch and congratulate Aaron and Joe for all their success last fall.

Thanks and we hope to see you all there Kert & Cindy, Joe & Brenda

This long deep bodied guy is impressive with lots of shape and thickness all around for a moderate frame, finer boned red hairy bull should make carcass quality steers. His large dam has plenty of milk production.

TVR ULTRASONIC 9U Grandsire to lot 42

This dark red hairy, deep and thick, softer made, with neck extension and lots of nuts, got noticed at the 2017 Medicine Hat Pen Show. Elvis is a moderate size that weaned 57% of his dam. KCC 30E has an entertaining personality, and was fairly easy to halter break. Picturing Elvis was difficult with his entertaining personality (it was like taking a selfie with Jim Carey).

Polled Purebred

Buyer's Draw
All buyers will be entered to win 90 day use of a Lewis Cattle Oiler OR a suspended mineral feeder, yours to keep. Our thanks to Krista Anderson for her generous donation!

LEWIS CATTLE OILERS protect your herd from external parasites like lice & flies, helping to prevent pink eye and other spreadable issues year round. They protect during the months that Ivermectin is not in use then back it up once it wears off after its 49 day period. Call Krista today for more information at 780-312-4984.

As a special at the Twin Bridge Farms & Twin View Livestock Bull Sale with the Ness family, Krista is also offering \$100 off the purchase of a new oiler! This includes your first fill of Incide or Eco-Scent.
